

Dear Chair Holvey and Vice Chairs Drazan and Warner and House Committee on Rules,

Please vote NOOOO on hb4005- on the lock up gun bill. Please stop the infringement on my 2nd amendment rights. For a responsible gun owning family, we have our guns under lock and key, but to add even more locks is unnecessary. I hopes of never having to use my gun to defend myself, one knows that seconds count when a gun situation is the last line of defense.

Please protect my rights and my right to defend my home, property and family at all costs.

Thank you for your time. A proud member of the Russian Old Believer Community from Scotts Mills, Oregon.
