

As an Oregonian I am in full support of HB 4075A, a ban on coyote killing contests. It is more important for you to act now than ever. I have hunted, and killing contests are not any reflection of what ethical hunting is. Furthermore, I have raised livestock and lived in very rural areas, from my experience these contests are not only inhumane but ineffective.

I encourage our Senate Rules Committee to take action on this bill and move it to the floor for a vote. Oregon values their wildlife, and the treatment of this bill, despite bipartisan support, has been incredibly disappointing. I urge both parties to do the right thing and get HB 4075 to the floor for a vote.

Thank you!
