Ban Coyote Killing Contests in Oregon, Support HB 4075A

Vermont, California, Massachusetts (not yet implemented), Arizona, New Mexico have all passed bans on coyote killing contests.

I understand there are political calculations that sometimes justify the majority of our elected representatives appeasing a minority of representatives.

But some issues call for preempting such considerations. I ask that you read the science and watch the videos before you give up in the name of political expediency.

Thank you.

John D. Vandenberg
