

Please support HB 4075A to end the gruesome practice known as coyote-killing contests. This is a barbarian practice to say the least, for what gain? For sport?

We have been fighting to end the cruelty of killing predators for sport since 1979. I cannot believe in 2020 we are circling back around. What is wrong with this picture?

We appreciate your support as your support shows a willingness to move forward in a humane and dignified world.

Sincerely,
Cynthia Fahy
