OPEN GOVERNMENT IMPACT

Legislative Counsel has not adopted standards for drafting measures that establish exemptions from disclosure of public records.

This measure exempts from public disclosure a pesticide operator's daily spray records and geographic information system data concerning a pesticide application by helicopter to forestland received by the Pesticide Analytical and Response Center from the pesticide operator.

If those public records that could be subject to public disclosure were instead subject to mandatory disclosure under public records law, the public could gain additional information regarding certain aerial pesticide applications.
