2020	2028	730
2021	621	271

- During the pandemic, Food boxes prepared for students contained food items that will keep a student for at least two (2) weeks.
- Each box contained items weighed about forty-three (43 lb.)
- Other avenues of food that was distributed to students includes Imperfect Food. Imperfect Foods is a company that aims to reduce food waste by providing seasonal or cosmetically flawed produce to the community. They ship these foods directly to student's door weekly. The Associated Student Government and Student Basic Needs Response Team partnered with Imperfect Foods to assist MHCC and sponsored the program that supported 20 students for 10 weeks with fresh produces groceries.
