Subject: Support for Higher Education

CAUTION: This email originated from outside the Legislature. Use caution clicking any links or attachments.

I would like the legislature and HECC to provide additional funding for the Private Career School division and give students who are enrolled in private career schools a stronger voice and opportunities for tuition scholarships and grants. Funding is directed toward state universities and community colleges with little regard to those students who can find successful profitable and tax paying careers by attending a vocational school. The Private Career School division is grossly understaffed and underfunded. There is a stigma against vocational schools as somehow being 'less than' and Oregon could be a leader in changing that perception.

I invite you to tour the school I own, Spectrum Advanced Aesthetics Institute, and learn more.

Thank you for your consideration.

Mary Nielsen
