BACKGROUND:

In 2015, the Oregon Legislative Assembly enacted Senate Bill 202 establishing the Task Force on Independent Scientific Review for Natural Resources. The Task Force evaluated and assessed the need for independent science review in Oregon and made recommendations to the Governor and appropriate legislative committees. The final Task Force Report was submitted to the legislature in September 2016 and can be found here: http://inr.oregonstate.edu/sites/inr.oregonstate.edu/files/sb202_final_report.pdf. In 2017, Senate Bill 198 would have created the Oregon Independent Science Review Board, but was not enacted.

House Bill 2386 would create Oregon Independent Science Review Board (Board) and establish Independent Scientific Review Secretariat (Secretariat) as administrative section within Institute for Natural Resources at Oregon State University. It would continuously appropriate moneys in fund to Higher Education Coordinating Commission for distribution to Oregon State University for purposes of the Board and Secretariat.
