#### BACKGROUND:

The Oregon Health Plan (OHP) provides health coverage to individuals and families through federal Medicaid and Children's Health Insurance Program (CHIP). In 2009, the legislature passed House Bill 2116, establishing the Health Care for All Oregon Children (Healthy Kids) program that made coverage available to children and adolescents (0-18) whose family earns up to 300 percent of the federal poverty level (FPL). According to the Oregon Health Authority (OHA), in 2019, approximately 97 percent of children and teens (0-18) were enrolled in health coverage. Among the remaining uninsured, 61 percent were identified as eligible for Medicaid but not enrolled.

Passed in 2017, Senate Bill 558 (Cover All Kids) extended OHP to all children residing in Oregon, regardless of immigration status below 300 percent of the federal poverty level. The measure also allocated funding to provide targeted, community-based outreach to assist with implementation through OHA's Community Partner Outreach Program (CPOP). According to OHA, at the end of the 2017-19 biennium, nearly 5,900 children had enrolled in OHP-Cover All Kids (2019).

House Bill 3352 expands Medicaid to adult residents 19 years or older regardless of immigration status and other qualifying criteria.
