ORGANIC SEED OPPORTUNITIES

BACKGROUND ON SEED DIVERSITY

ORGANIC SEED SNAPSHOT

ADAPTIVE SEEDS
 Kaniyou Seeds
 Pacific Northwest grown, open pollinated, and organic seed.
 Broccoli
 Purple Sprouting
 1/4 g = 75 seeds
 Brassica oleracea 210-240 days. Clusters of vibrant purple broccoli florets sprout for multiple harvests. Leafy maturing, winter hardy and edible. Overwintered purple sprouting broccoli is a special treat and superb food source during the hunger gap of March-April.
 Jan 01 Germ 94

Adaptive Seeds
 Pacific Northwest grown, open pollinated, and organic seed.
 Lettuce
 Little Gem Pearl
 2g
 1/4 g = 250 seeds
 Mini Green, 50 days. Selection of Little Gem, makes miniature heads of green romaine, & possibly the best sweet flavor because they are so compact, you can plant twice the density, yielding more per bed foot. A Royal Horticultural award winner.

Adaptive Seeds
 CELERY LEAF
 Surface sow 1/2 pints indoors March-April. Transplant to 8" centers in fertile soil when plants are 3" tall. Prefers cool growing conditions. Keep well fertilized, watered and cultivated. Harvest 15+ plants for replanting or culinary use. Eat seed stalks when seeds are dry (chop by hand, discard, then hitting seed stalk against sides of bucket. Wash, clean, isolate from other *Apium graveolens* (leaf or leaf celery & celeriac) by at least 1/4 mile.
 Reusable plastic bag stores and protects seeds from moisture. Keep out of direct sunlight.
