#### **ISSUES DISCUSSED:**

#### **EFFECT OF AMENDMENT:**

No amendment.

#### **BACKGROUND:**

State law currently establishes only a portion of the requirements for a high school diploma (math and English language arts credits). The remaining credit requirements, along with additional requirements such as demonstrated proficiency in nine essential skills, education plans, and education profiles, are codified in Oregon Administrative Rule 581-022-2000.

Senate Bill 744 A requires the Department of Education to review high school graduation requirements and suspends essential learning skills requirements for two school years, until the Department's report is submitted to the legislature. The measure permanently prevents the State Board of Education from requiring students who have completed their required coursework to demonstrate proficiency in any other skill or academic content area beginning with the 2023-2024 school year.
