#### **WHAT THE MEASURE DOES:**

Allows the State Board of Parole and Post-Prison Supervision to discharge a person from parole or post-prison supervision prior to the end of the supervision term if certain factors related to a medical condition are met. Eliminates "terminal illness," and instead specifies that being on supervision must be preventing the person from accessing a care facility, and that medical substantiation and verification from a medical professional is required. Changes the requirement for the victim's current address to the victim's current contact information be on file for notification, if the victim has requested notification. Directs the board to adopt rules for discharging persons pursuant to these parameters.
