#### **BACKGROUND:**

During the 2020 interim, the Joint Committee on Transparent Policing and Use of Force Reform was formed in response to the death of George Floyd in Minnesota and the protests that followed. During its hearings, the Committee heard concerns about the inability of the public to identify law enforcement officers responding to the protests. Subsequently, a work group was formed to address these concerns and propose solutions.

House Bill 3355 A specifies what identification must be on an officer engaged in crowd management in cities with populations over 150,000, requires officers to identify themselves to members of the public in most circumstances, and creates a process by which a member of the public can request the name and identification number of an officer from a law enforcement agency.
