• FLC Operates

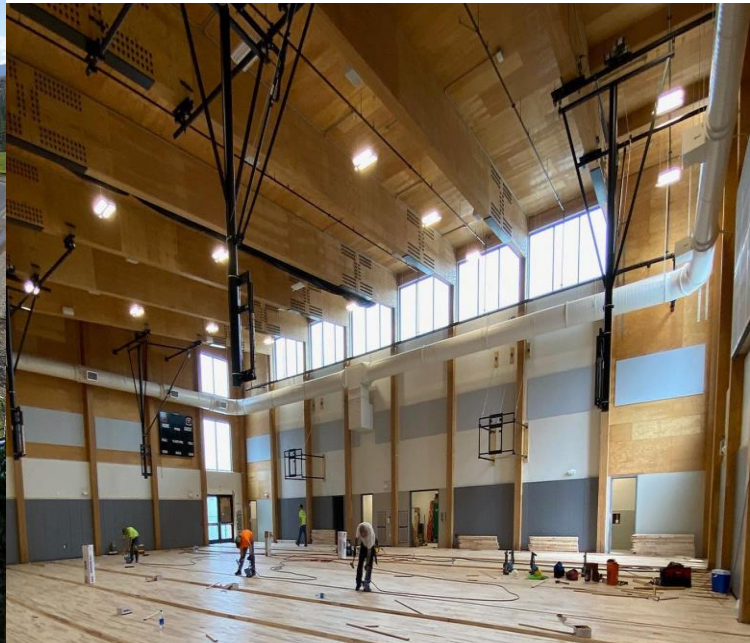

- Two Veneer plants
- Veneer Drying Facility
- Plywood Plant
- Cogeneration Facility
- Stud mill
- Fleet of Log and Highway Trucks
- **MPP Facility - World's first Mass Timber manufactured from veneer**
 - Operational December 2017
- 400 active employees
- We would like 500!

- Beachie Creek Fire- 196,000 acres
- 5780 Freres acres burned
 - 32% of our timber holdings
- 2.3 million seedlings to be planted on Freres Timber lands
- Fall 2021 to 20223 million seedlings ordered for replanting Freres Lands & other local partners in the next 2 years
- Currently recovering about 75% of burnt timber
- USFS and State timber can be salvaged and land restored to forest. It needs to happen now!

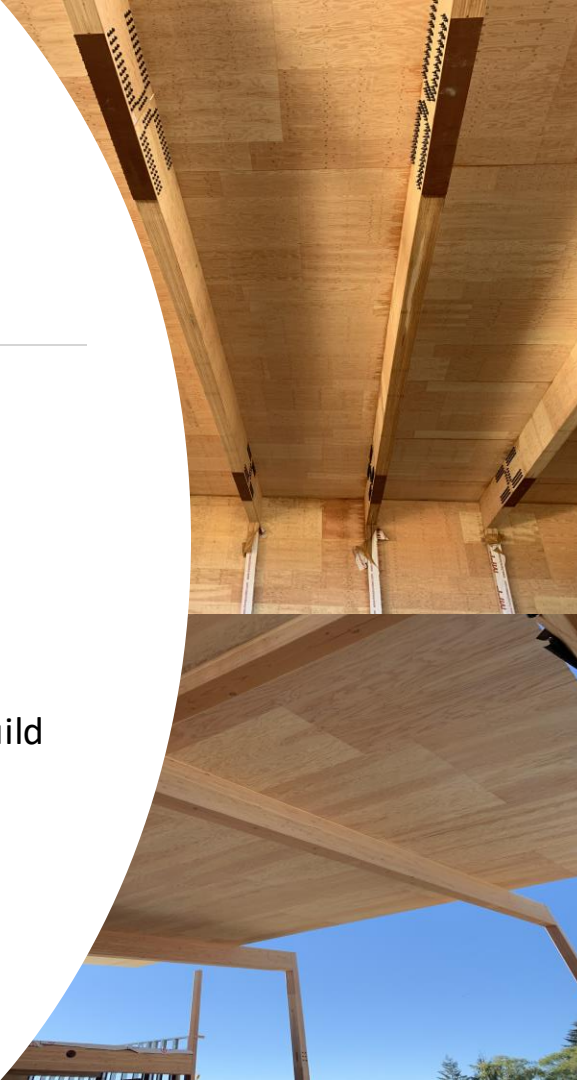

- **Mass Timber**

- 50% of mass of wood products is carbon
- Wood is:
 - 100% Solar powered
 - 100% Renewable
 - 100% Recyclable
 - Breathes in Carbon Dioxide to build its cells & breathes out Oxygen
 - Greatest carbon sequestering machine known to humankind
 - But... forests must be managed!
