

CONFLICT AMENDMENT RECOMMENDATION

HB 3000 Relating to cannabis

To: Ways and Means Full Committee
Carrier: Representative Leif

HB 3000 defines multiple terms specific to cannabis and cannabinoids. The measure authorizes the Oregon Liquor Control Commission to regulate artificially derived cannabinoids and directs the Commission, Oregon Health Authority, and Oregon Department of Agriculture to adopt rules related to maximum concentration limits of THC, inspections, regulation and testing of products, licensing, and handling.

The Joint Committee on Ways and Means previously approved this bill, and it has passed the House.

The –C14 amendment resolves conflicts with SB 408. SB 408 specifies conditions under which OLCC may delay processing, approving, or denying a license application, as well as requiring rules to be adopted by the Oregon Health Authority and OLCC for concentration limits for a single package of a cannabinoid product.

I recommend HB 3000 be amended by the –C14 conflict amendment and be reported out do pass, as amended.
