goals applicable statewide, and the Department of Land Conservation and Development (DLCD), charged with assisting the commission and local governments with implementation of those goals and coordinating state agencies with respect to land use matters. The measure also directed local governments to adopt and implement comprehensive plans and revise them periodically in conformity with Oregon's statewide goals and with the needs and desires of the public. Local land use decisions may only be reviewed by a specialized adjudicatory agency, the Land Use Board of Appeals (LUBA), and LUBA decisions are reviewed by the Court of Appeals.

House Bill 3318 A establishes an expedited land use planning process and with associated deadlines for the development of Stevens Road tract in Bend, owned by the Department of State Lands. The measure specifies public participation and consultation requirements; conceptual plan requirements and deadlines; criteria and deadlines for DLCD to approve expansion of the corresponding urban growth boundary and planning amendments; and planning amendment requirements. The measure also prohibits DLCD from approving the planning amendments unless it designates at least 20 net acres for residential housing restricted to specified minimum densities and preserved as affordable for at least 50 years.
