Measure Description:

This measure implements statutory changes necessary to support the 2021-23 legislatively adopted budget and to clarify the application of statutes.

Revenue Impact:

The measure has no revenue impact. Section 9 of the bill repeals an expense limitation related to Lottery moneys transferred from the Education Stability Fund (included in SB 5514) that never transpired. In fact, the Governor vetoed that provision. Consequently, the repeal has no impact. Section 11 of the bill reduces facility grants from the State School Fund while simultaneously increasing, by the same amount, the amount allowed for expenses incurred by the Office of School Facilities.

Creates, Extends, or Expands Tax Expenditure: Yes No
