31 or turn right or left unless a sign at that place prohibits either turn. The bicyclist shall yield the
32 right of way to other vehicles within the intersection at the time the green bicycle signal is shown.

33 (4) Steady circular yellow signal. A driver facing a steady circular yellow signal light is thereby
34 warned that the related right of way is being terminated and that a red or flashing red light will
35 be shown immediately. A driver facing the light shall stop at a clearly marked stop line, but if none,
36 shall stop before entering the marked crosswalk on the near side of the intersection, or if there is
37 no marked crosswalk, then before entering the intersection. If a driver cannot stop in safety, the
38 driver may drive cautiously through the intersection.

39 (5) Steady yellow arrow signal. A driver facing a steady yellow arrow signal, alone or in com-
40 bination with other signal indications, is thereby warned that the related right of way is being ter-
41 minated. Unless entering the intersection to make a movement permitted by another signal, a driver
42 facing a steady yellow arrow signal shall stop at a clearly marked stop line, but if none, shall stop
43 before entering the marked crosswalk on the near side of the intersection, or if there is no marked
44 crosswalk, then before entering the intersection. If a driver cannot stop in safety, the driver may
45 drive cautiously through the intersection.

1 (6) Steady yellow bicycle signal. A bicyclist facing a steady yellow bicycle signal is thereby
2 warned that the related right of way is being terminated and that a red bicycle signal will be shown
3 immediately. A bicyclist facing a steady yellow bicycle signal shall stop at a clearly marked stop
4 line, but if none, shall stop before entering the marked crosswalk on the near side of the inter-
5 section, or if there is no marked crosswalk, then before entering the intersection. If a bicyclist
6 cannot stop in safety, the bicyclist may proceed cautiously through the intersection.

7 (7) Steady circular red signal. A driver facing a steady circular red signal light alone shall stop
8 at a clearly marked stop line, but if none, before entering the marked crosswalk on the near side
9 of the intersection, or if there is no marked crosswalk, then before entering the intersection. The
10 driver shall remain stopped until a green light is shown except when the driver is permitted to
11 proceed under ORS 811.360.

12 (8) Steady red arrow signal. A driver facing a steady red arrow signal, alone or in combination
13 with other signal indications, may not enter the intersection to make the movement indicated by the
14 red arrow signal. Unless entering the intersection to make some other movement which is permitted
15 by another signal, a driver facing a steady red arrow signal shall stop at a clearly marked stop line,
16 but if none, before entering the marked crosswalk on the near side of the intersection, or if there
17 is no marked crosswalk, then before entering the intersection. The vehicle shall remain stopped until
18 a green light is shown except when the driver is permitted to proceed under ORS 811.360.

19 (9) Steady red bicycle signal. A bicyclist facing a steady red bicycle signal shall stop at a clearly
20 marked stop line, but if none, before entering the marked crosswalk on the near side of the inter-
21 section, or if there is no marked crosswalk, then before entering the intersection. The bicyclist shall
22 remain stopped until a green bicycle signal is shown except when the bicyclist is permitted to pro-
23 ceed under ORS 811.360.

24 (10) Traffic control devices at places other than intersections. If a traffic control device that is
25 a signal is erected and maintained at a place other than an intersection, the provisions of this sec-
26 tion relating to signals shall be applicable. A required stop shall be made at a sign or marking on
27 the roadway indicating where the stop shall be made, but in the absence of such sign or marking
28 the stop shall be made at the signal.

29 (11) Flashing red signal. When a driver approaches a flashing red light used in a traffic control
30 device or with a traffic sign, the driver shall stop at a clearly marked stop line, but if none, before
31 entering the marked crosswalk on the near side of the intersection, or if there is no marked cross-
32 walk, then at the point nearest the intersecting roadway where the driver has a view of approaching
33 traffic on the intersecting roadway before entering it. The right to proceed shall be subject to the
34 rules applicable after making a stop at a stop sign. This subsection does not apply to:

35 (a) A person operating a bicycle; or

36 (b) Drivers at railroad grade crossings. Conduct of a driver approaching a railroad grade
37 crossing is governed by ORS 811.455.

38 (12) Flashing circular yellow signal. [*When a driver approaches a flashing circular yellow light*
39 *used as a signal in a traffic control device or with a traffic sign, the driver may proceed through the*
40 *intersection or past the signal only with caution.*] **When a driver facing a flashing circular yellow**
41 **signal approaches an intersection, the driver may cautiously enter the intersection to pro-**
42 **ceed straight through, turn right or turn left except as such movement is modified by lane**
43 **use signs, turn prohibition signs, lane markings, roadway design, separate turn signal indi-**
44 **cations or other traffic control devices.** This subsection does not apply at railroad grade
45 crossings. Conduct of a driver approaching a railroad grade crossing is governed by ORS 811.455.

1 (13) Flashing yellow arrow signal. A driver facing a flashing yellow arrow signal, alone or in
2 combination with other signal indications, may cautiously enter the intersection only to make the
3 movement indicated by the flashing yellow arrow signal or the movement permitted by other signals
4 shown at the same time. A driver shall yield the right of way to other vehicles within the inter-
5 section at the time the flashing yellow arrow signal is shown. In addition, a driver turning left shall
6 yield the right of way to other vehicles approaching from the opposite direction so closely as to
7 constitute an immediate hazard during the time when the turning vehicle is moving across or within
8 the intersection.

9 (14) Lane direction control signals. When lane direction control signals are placed over the in-
10 dividual lanes of a highway, a person may drive a vehicle in any lane over which a green signal
11 light is shown, but may not enter or travel in any lane over which a red signal light is shown.

12 (15) Stop signs. A driver approaching a stop sign shall stop at a clearly marked stop line, but
13 if none, before entering the marked crosswalk on the near side of the intersection or, if there is no
14 marked crosswalk, then at the point nearest the intersecting roadway where the driver has a view
15 of approaching traffic on the intersecting roadway before entering it. After stopping, the driver shall
16 yield the right of way to any vehicle in the intersection or approaching so close as to constitute an
17 immediate hazard during the time when the driver is moving across or within the intersection. This
18 subsection does not apply to a person operating a bicycle.

19 (16) Yield signs. A driver approaching a yield sign shall slow the driver's vehicle to a speed
20 reasonable for the existing conditions and if necessary for safety, shall stop at a line as required for
21 stop signs under this section, and shall yield the right of way to any vehicles in the intersection or
22 approaching so closely as to constitute an immediate hazard.

23 **(17) Flashing yellow beacon. When a flashing yellow beacon is used to supplement another**
24 **traffic control device, a driver shall pay extra attention to the message provided by the**
25 **beacon and follow the requirements of the other traffic control device, which might not be**
26 **otherwise applicable at all times.**

27 **NOTE:** Section 17 was deleted by amendment. Subsequent sections were not renumbered.

28 **SECTION 18.** ORS 825.402 is amended to read:

29 825.402. (1) Except as provided in subsection (4) of this section, all motor carriers that are

32 825.400.

33 (2) A motor carrier required by subsection (1) of this section to participate in the program must
34 do so within 90 days of the date on which it receives a certificate or permit from the department.

35 (3) In addition to motor carriers required to participate in the program established under ORS

44 a certificate or permit prior to that date.

45 (5) Rules adopted by the department under ORS 825.400 shall require each motor carrier par-

1 participating in the program to have at least one person having a substantial interest or control, di-
2 rectly or indirectly, in or over the operations conducted or to be conducted under the certificate

4 ipation of a motor carrier more than one time except for motor carriers required to participate un-
5 der subsection (3) of this section.

6 **(6) Rules adopted by the department under ORS 825.400 shall require each motor carrier**
7 **participating in the program to attend at least eight hours of classroom instruction. The**

41 **scribed in subparagraph (A) of this paragraph.**

42 [(c)] **(e) “Vehicle” means a vehicle, vessel, train, boat or any other equipment that is mobile.**

43 **(2) The Legislative Assembly finds and declares that:**

44 (a) Transportation electrification is necessary to reduce petroleum use, achieve optimum levels
45 of energy efficiency and carbon reduction, meet federal and state air quality standards, meet this

1 state's greenhouse gas emissions reduction goals described in ORS 468A.205 and improve the public
2 health and safety;

3 (b) Widespread transportation electrification requires that electric companies increase access to
4 the use of electricity as a transportation fuel;

5 (c) Widespread transportation electrification requires that electric companies increase access to
6 the use of electricity as a transportation fuel in low and moderate income communities;

7 (d) Widespread transportation electrification should stimulate innovation and competition, pro-
8 vide consumers with increased options in the use of charging equipment and in procuring services
9 from suppliers of electricity, attract private capital investments and create high quality jobs in this
10 state;

11 (e) Transportation electrification and the purchase and use of electric vehicles should assist in
12 managing the electrical grid, integrating generation from renewable energy resources and improving
13 electric system efficiency and operational flexibility, including the ability of an electric company to
14 integrate variable generating resources;

15 (f) Deploying transportation electrification and electric vehicles creates the opportunity for an
16 electric company to propose, to the *[Public Utility]* commission, that a net benefit for the customers
17 of the electric company is attainable; and

18 (g) Charging electric vehicles in a manner that provides benefits to electrical grid management
19 affords fuel cost savings for vehicle drivers.

20 (3)(a) The *[Public Utility]* commission shall direct each electric company to file *[applications, in*
21 *a form and manner prescribed by the commission, for programs to accelerate transportation*
22 *electrification.]*:

23 **(A) Applications for programs to support transportation electrification; and**

24 **(B) A plan, for acceptance by the commission, that integrates the electric company's**
25 **transportation electrification actions.**

26 **(b) The applications and plan must be filed in a form and manner prescribed by the**
27 **commission.**

28 (c) A program proposed by an electric company may include prudent investments in or customer
29 rebates for electric vehicle charging and related infrastructure.

30 **(4) The commission may allow an electric company to recover costs from retail electric-**
31 **ity consumers for prudent infrastructure measures to support transportation electrification**
32 **if the infrastructure measures are consistent with and meet the requirements of subsection**
33 **(5) of this section.**

34 **(5) If undertaken by an electric company, an infrastructure measure to support trans-**
35 **portation electrification is a utility service and a benefit to utility customers if the**
36 **infrastructure measure can be reasonably anticipated to:**

37 **(a) Support reductions of transportation sector greenhouse gas emissions over time; and**

38 **(b) Benefit the electric company's customers in ways that may include, but need not be**
39 **limited to:**

40 **(A) Distribution or transmission management benefits;**

41 **(B) Revenues to utilities from electric vehicle charging to offset utilities' fixed costs that**
42 **may otherwise be charged to customers;**

43 **(C) System efficiencies or other economic values inuring to the benefit of customers over**
44 **the long term; or**

45 **(D) Increased customer choice through greater transportation electrification**

1 **infrastructure deployment to increase the availability of and access to public and private**
2 **electric vehicle charging stations.**

3 [(4)] (6) When considering a transportation electrification program and determining cost recov-
4 ery for investments and other expenditures **that are not infrastructure measures and that are**
5 related to a program proposed by an electric company under subsection (3) of this section, the
6 commission shall consider whether the investments and other expenditures:

7 (a) Are within the service territory of the electric company;

8 (b) Are prudent as determined by the commission;

9 (c) Are reasonably expected to be used and useful as determined by the commission;

10 (d) Are reasonably expected to enable the electric company to support the electric company's
11 electrical system;

12 (e) Are reasonably expected to improve the electric company's electrical system efficiency and
13 operational flexibility, including the ability of the electric company to integrate variable generating
14 resources; and

15 (f) Are reasonably expected to stimulate innovation, competition and customer choice in electric
16 vehicle charging and related infrastructure and services.

17 (7) **In undertaking infrastructure measures that involve the installation of one or more**
18 **electric vehicle charging stations, an electric company must allow for customer choice in the**
19 **selection of the type of electric vehicle charging station to be installed, subject to equipment**
20 **eligibility as determined by the electric company. An electric company may prequalify mul-**
21 **ti-ple types of eligible electric vehicle charging stations based on criteria determined by the**
22 **electric company.**

23 (8) **Nothing in this section restricts or prohibits a corporation, company, partnership,**
24 **individual or association of individuals exempt from regulation under ORS 757.005 (1)(b)(G)**
25 **from furnishing electricity to any number of customers for use in motor vehicles.**

27 **(6)** of this section:

28 (A) May allow a return of and a return on an investment made by an electric company under
29 [subsection (3)] **subsections (3) to (6)** of this section; and

30 (B) Shall be recovered from [all customers] **the retail electricity consumers** of an electric
31 company in a manner [that is similar to the recovery of distribution system investments] **determined**
32 **by the commission.**

33 (b) A return on investment allowed under this subsection may be earned for a period of time
34 that does not exceed the depreciation schedule of the investment approved by the commission. When
35 an electric company's investment is fully depreciated, the commission may authorize the electric
36 company to donate the electric vehicle charging infrastructure to the owner of the property on
37 which the infrastructure is located.

38 [(6)] (10) For purposes of ORS 757.355, electric vehicle charging infrastructure provides utility
39 service to the customers of an electric company.

40 [(7)] (11) In authorizing programs described in subsection (3) of this section, the commission
41 shall review data concerning current and future adoption of electric vehicles and utilization of
42 electric vehicle charging infrastructure. If market barriers unrelated to the investment **or expen-**
43 **ditures** made by an electric company prevent electric vehicles from adequately utilizing available
44 electric vehicle charging infrastructure, the commission may not permit additional investments in
45 **or expenditures related to supporting** transportation electrification without a reasonable showing

1 that the investments or expenditures would not result in long-term stranded costs recoverable from
2 the [customers] retail electricity consumers of electric companies.

3 **SECTION 22.** Section 23 of this 2021 Act and ORS 757.357 are added to and made a part
4 of ORS chapter 757.

6 regulated by the Public Utility Commission under ORS chapter 757.

7 (2) The commission may allow a natural gas utility to recover costs from all retail na-
8 tural gas customers for prudent investments in or expenses related to infrastructure meas-
9 ures that support the adoption and service of alternative forms of transportation vehicles if
10 the investments or expenses are consistent with and meet the requirements of subsection
11 (3) of this section. An investment or expense by a natural gas utility may include an invest-
12 ment in or an expense related to infrastructure behind the customer meter.

13 (3) An investment in or expense related to infrastructure measures that support the
14 adoption and service of alternative forms of transportation vehicles is a utility service and
15 a benefit to retail natural gas customers if the investment or expense can be reasonably
16 anticipated to:

17 (a) Support the adoption of alternative vehicles that are powered by renewable natural
18 gas or hydrogen;

19 (b) Support reductions of transportation sector greenhouse gas emissions over time; and

20 (c) Benefit the natural gas utility system. Benefits may include, but need not be limited
21 to:

22 (A) Distribution or transmission management benefits;

23 (B) System efficiencies or other economic values inuring to the benefit of retail natural
24 gas customers over the long term; or

25 (C) Revenues to natural gas utilities from fueling alternative forms of transportation
26 vehicles to offset utilities’ fixed costs that may otherwise be charged to retail natural gas
27 customers.

12 as common carriers.

13 (3) ORS 824.020 to 824.042 and 824.050 to 824.110 do not apply to corporations, companies, in-
14 dividuals, associations of individuals and their lessees, trustees or receivers that:

15 (a) Are primarily involved in a business enterprise other than rail transportation;

16 (b) Conduct rail operations 50 percent or more of which are for the purpose of providing trans-
17 portation to the primary business enterprise;

18 (c) Operate on less than 10 miles of track; and

19 (d) Provide for hire rail transportation service to no more than five persons.

20 **SECTION 26.** ORS 824.026 is amended to read:

33 (f) In approving an exception under this subsection, the appropriate authority may direct
34 a contracting agency to consult with legal counsel to ensure compliance with applicable law
35 in conducting a procurement for personal services of the type described in subsection (1) of
36 this section.

37 **SECTION 49.** ORS 279C.335 is amended to read:

38 279C.335. (1) All public improvement contracts [*shall*] **must** be based upon competitive bids ex-
39 cept:

40 (a) A public improvement contract with a qualified nonprofit agency that provides employment
41 opportunities for individuals with disabilities under ORS 279.835 to 279.855.

42 (b) A public improvement contract that is exempt under subsection (2) of this section.

43 (c) A public improvement contract with a value of less than \$5,000.

44 (d) A public improvement contract with a contract price that does not exceed \$100,000 made
45 under procedures for competitive quotes in ORS 279C.412 and 279C.414.

1 (e) A contract to repair, maintain, improve or protect property the Department of Veterans'
2 Affairs obtains under ORS 407.135 and 407.145 (1).

3 (f) An energy savings performance contract that a contracting agency enters into in accordance
4 with rules of procedure adopted under ORS 279A.065.

5 **(g) A public improvement contract with an estimated contract price of \$250,000 or less**
6 **that a contracting agency awards to an emerging small business certified under ORS 200.055**
7 **and funds with moneys from the Emerging Small Business Account established under ORS**
8 **200.180. A contracting agency that awards a public contract exempted from competitive bid-**
9 **ding under this paragraph shall solicit competitive quotes as provided in ORS 279C.414 before**
10 **making the award.**

11 (2) Subject to subsection (4)(b) and (c) of this section, the Director of the Oregon Department
12 of Administrative Services, a local contract review board or, for contracts described in ORS
13 279A.050 (3)(b), the Director of Transportation may exempt a public improvement contract or a class
14 of public improvement contracts from the competitive bidding requirement of subsection (1) of this
15 section after the Director of the Oregon Department of Administrative Services, the Director of
16 Transportation or the local contract review board approves the following findings that the con-
17 tracting agency submits or, if a state agency is not the contracting agency, that the state agency
18 that is seeking the exemption submits:

19 (a) The exemption is unlikely to encourage favoritism in awarding public improvement contracts
20 or substantially diminish competition for public improvement contracts.

21 (b) Awarding a public improvement contract under the exemption will likely result in substantial
22 cost savings and other substantial benefits to the contracting agency or the state agency that seeks
23 the exemption or, if the contract is for a public improvement described in ORS 279A.050 (3)(b), to
24 the contracting agency or the public. In approving a finding under this paragraph, the Director of
25 the Oregon Department of Administrative Services, the Director of Transportation or the local
26 contract review board shall consider the type, cost and amount of the contract and, to the extent
27 applicable to the particular public improvement contract or class of public improvement contracts,
28 the following:

29 (A) How many persons are available to bid;

30 (B) The construction budget and the projected operating costs for the completed public im-
31 provement;

32 (C) Public benefits that may result from granting the exemption;

33 (D) Whether value engineering techniques may decrease the cost of the public improvement;

34 (E) The cost and availability of specialized expertise that is necessary for the public improve-
35 ment;

36 (F) Any likely increases in public safety;

37 (G) Whether granting the exemption may reduce risks to the contracting agency, the state
38 agency or the public that are related to the public improvement;

39 (H) Whether granting the exemption will affect the sources of funding for the public improve-
40 ment;

41 (I) Whether granting the exemption will better enable the contracting agency to control the
42 impact that market conditions may have on the cost of and time necessary to complete the public
43 improvement;

44 (J) Whether granting the exemption will better enable the contracting agency to address the size
45 and technical complexity of the public improvement;

1 (K) Whether the public improvement involves new construction or renovates or remodels an
2 existing structure;

3 (L) Whether the public improvement will be occupied or unoccupied during construction;

4 (M) Whether the public improvement will require a single phase of construction work or multi-
5 ple phases of construction work to address specific project conditions; and

6 (N) Whether the contracting agency or state agency has, or has retained under contract, and
7 will use contracting agency or state agency personnel, consultants and legal counsel that have
8 necessary expertise and substantial experience in alternative contracting methods to assist in de-
9 veloping the alternative contracting method that the contracting agency or state agency will use to
10 award the public improvement contract and to help negotiate, administer and enforce the terms of
11 the public improvement contract.

12 (c) As an alternative to the finding described in paragraph (b) of this subsection, if a contracting
13 agency or state agency seeks an exemption that would allow the contracting agency or state agency
14 to use an alternative contracting method that the contracting agency or state agency has not pre-
15 viously used, the contracting agency or state agency may make a finding that identifies the project
16 as a pilot project for which the contracting agency or state agency intends to determine whether
17 using the alternative contracting method actually results in substantial cost savings to the con-
18 tracting agency, to the state agency or, if the contract is for a public improvement described in ORS
19 279A.050 (3)(b), to the contracting agency or the public. The contracting agency or state agency
20 shall include an analysis and conclusion regarding actual cost savings, if any, in the evaluation re-
21 quired under ORS 279C.355.

22 (3) In making findings to support an exemption for a class of public improvement contracts, the
23 contracting agency or state agency shall clearly identify the class using the class's defining char-
24 acteristics. The characteristics must include a combination of project descriptions or locations, time
25 periods, contract values, methods of procurement or other factors that distinguish the limited and
26 related class of public improvement contracts from the agency's overall construction program. The
27 agency may not identify a class solely by funding source, such as a particular bond fund, or by the
28 method of procurement, but shall identify the class using characteristics that reasonably relate to
29 the exemption criteria set forth in subsection (2) of this section.

30 (4) In granting exemptions under subsection (2) of this section, the Director of the Oregon De-
31 partment of Administrative Services, the Director of Transportation or the local contract review
32 board shall:

33 (a) If appropriate, direct the use of alternative contracting methods that take account of market
34 realities and modern practices and are consistent with the public policy of encouraging competition.

35 (b) Require and approve or disapprove written findings by the contracting agency or state
36 agency that support awarding a particular public improvement contract or a class of public im-
37 provement contracts, without the competitive bidding requirement of subsection (1) of this section.
38 The findings must show that the exemption of a contract or class of contracts complies with the
39 requirements of subsection (2) of this section.

40 (c) Require a contracting agency or state agency that procures construction manager/general
41 contractor services to conduct the procurement in accordance with model rules the Attorney Gen-
42 eral adopts under ORS 279A.065 (3).

43 (5)(a) A contracting agency or state agency *[shall]* **may** hold a public hearing before approving
44 the findings required by subsection (2) of this section and before the Director of the Oregon De-
45 partment of Administrative Services, the Director of Transportation or the local contract review

1 board grants an exemption from the competitive bidding requirement for a public improvement con-
2 tract or a class of public improvement contracts.

3 (b) Notification of *[the public hearing]* **a proposed exemption under subsection (2) of this**
4 **section** must be published in at least one trade newspaper of general statewide circulation a mini-
5 mum of 14 days before the *[hearing]* **date on which the contracting agency intends to take**
6 **action to approve or disapprove the exemption.**

7 (c) The notice must state that **in response to a written request, the contracting agency or**
8 **state agency will hold a** public hearing *[is]* for the purpose of taking comments on the draft
9 findings for an exemption from the competitive bidding requirement. *[At the time of the notice, copies*
10 *of the draft findings must be made available to the public. At the option of the contracting agency or*
11 *state agency, the notice may describe the process by which the findings are finally adopted and may*
12 *indicate the opportunity for further public comment.]*

13 (d) *[At the]* **If the contracting agency or state agency conducts a** public hearing, the con-
14 tracting agency or state agency shall offer an opportunity for any interested party to appear and
15 comment.

16 (e) If a contracting agency or state agency must act promptly because of circumstances beyond
17 the agency's control that do not constitute an emergency, notification of the *[public hearing]* **pro-**
18 **posed exemption** may be published simultaneously with the agency's solicitation of contractors for
19 the alternative public contracting method, as long as responses to the solicitation are due at least
20 five days after the *[hearing and approval of the findings]* **agency intends to take action to approve**
21 **or disapprove the proposed exemption.**

22 (6) The purpose of an exemption is to exempt one or more public improvement contracts from
23 competitive bidding requirements. The representations in and the accuracy of the findings, including
24 any general description of the resulting public improvement contract, are the bases for approving
25 the findings and granting the exemption. The findings may describe anticipated features of the re-
26 sulting public improvement contract, but the final parameters of the contract are those character-
27 istics or specifics announced in the solicitation document.

28 (7) A public improvement contract awarded under the competitive bidding requirement of sub-
29 section (1) of this section may be amended only in accordance with rules adopted under ORS
30 279A.065.

31 (8) A public improvement contract that is excepted from the competitive bidding requirement
32 under subsection (1)(a), (c), (d), (e), *[or]* (f) **or (g)** of this section is not subject to the exemption re-
33 quirements of subsection (2) of this section.

34 **SECTION 50. The amendments to ORS 279A.142, 279C.307 and 279C.335 by sections 46, 48**
35 **and 49 of this 2021 Act apply to contracts that a contracting agency or state agency adver-**
36 **tises or otherwise solicits, or, if the contracting agency or state agency does not advertise**
37 **or solicit the public contract, to public contracts into which the contracting agency or state**
38 **agency enters or amends on or after the effective date of this 2021 Act.**

39 **NOTE:** Sections 51 to 80 were deleted by amendment. Subsequent sections were not renumbered.

40
41 **HIGHWAY SPEEDS**

42
43 **SECTION 81.** ORS 810.180 is amended to read:

44 810.180. (1) As used in this section:

45 (a) "Designated speed" means the speed that is designated by a road authority as the maximum

1 permissible speed for a highway and that may be different from the statutory speed for the highway.

2 (b) "Statutory speed" means the speed that is established as a speed limit under ORS 811.111,
3 or is established as the speed the exceeding of which is prima facie evidence of violation of the basic
4 speed rule under ORS 811.105.

5 (2)(a) A designated speed established under this section is a speed limit if the highway for which
6 the speed is designated is subject to a statutory speed limit under ORS 811.111 that is in addition
7 to the speed limit established under ORS 811.111 (1)(b).

8 (b) A speed greater than a designated speed established under this section is prima facie evi-
9 dence of violation of the basic speed rule if the designated speed is established for a highway on
10 which there is no speed limit other than the limit established under ORS 811.111 (1)(b).

11 (3) The Department of Transportation may establish by rule designated speeds on any specified
12 section of interstate highway if the department determines that speed limits established under ORS
13 811.111 (1) are greater or less than is reasonable or safe under the conditions that exist with respect
14 to that section of the interstate highway. Designated speeds established under this subsection are
15 subject to all of the following:

16 (a) The department may not establish a designated speed under this subsection of more than:

17 (A) Sixty-five miles per hour for vehicles described in ORS 811.111 (1)(b); and

18 (B) Seventy miles per hour for all other vehicles.

19 (b) If the department establishes designated speeds under this subsection that are greater than
20 65 miles per hour, the designated speed for vehicles described in ORS 811.111 (1)(b) must be at least
21 five miles per hour lower than the designated speed for all other vehicles on the specified section
22 of interstate highway.

23 (c) The department may establish a designated speed under this subsection only if an engineer-
24 ing and traffic investigation indicates that the statutory speed for the interstate highway is greater
25 or less than is reasonable or safe under conditions the department finds to exist.

26 (d) A designated speed established under this subsection is effective when appropriate signs
27 giving notice of the designated speed are posted on the section of interstate highway where the
28 designated speed is imposed.

29 (4)(a) The department may establish, pursuant to a process established by rule, a designated
30 speed on a state highway outside of a city. The authority granted under this subsection includes,
31 but is not limited to, the authority to establish different designated speeds for different kinds or
32 classes of vehicles as the department determines reasonable and safe. A designated speed established
33 under this subsection for any kind or class of vehicles may not exceed the speed limit for the high-
34 way for that kind or class of vehicles as established in ORS 811.111 or, if there is no speed limit for
35 the highway other than the limit established in ORS 811.111 (1)(b), may not exceed 55 miles per hour.

36 (b) The department may establish a designated speed under this subsection only if an engineer-
37 ing and traffic investigation indicates that the statutory speed for the highway is greater or less
38 than is reasonable or safe under conditions the department finds to exist.

39 (c) A designated speed established under this subsection is effective when appropriate signs
40 giving notice of the designated speed are posted on the portion of highway where the designated
41 speed is imposed.

42 (5) After a written request is received from a road authority for a highway other than a highway
43 described in subsection (3) or (4) of this section, the department, pursuant to a process established
44 by rule, may establish a designated speed for the highway. The authority granted under this sub-
45 section includes, but is not limited to, the authority to establish different designated speeds for dif-

1 ferent kinds or classes of vehicles as the department determines reasonable and safe. The authority
2 granted under this subsection is subject to all of the following:

3 (a) The written request from the road authority must state a recommended designated speed.

4 (b) The department may establish a designated speed under this subsection only if an engineer-
5 ing and traffic investigation indicates that the statutory speed for the highway is greater or less
6 than is reasonable or safe under conditions the department finds to exist.

7 (c) The department may not make a final decision to establish a designated speed under this
8 subsection without providing the affected road authorities with notice and opportunity for a hearing.

9 (d) A road authority may file a written objection to a designated speed that is proposed by the
10 department under this subsection and that affects the road authority.

11 (e) A designated speed established under this subsection is effective when appropriate signs
12 giving notice of the designated speed are posted on the portion of the highway where the designated
13 speed is imposed. The expense of erecting any sign under this subsection shall be borne by the road
14 authority having jurisdiction over the portion of the highway where the designated speed is imposed.

15 (f) The department, pursuant to a process established by rule, may delegate its authority under
16 this subsection with respect to highways that are low volume or unpaved to a city or county with
17 jurisdiction over the highway. The department shall delegate authority under this paragraph only
18 if it determines that the city or county will exercise the authority according to criteria adopted by
19 the department.

20 **(g) The department, pursuant to a process established by rule, may delegate its authority**
21 **under this subsection to Clackamas County, Multnomah County or a city with jurisdiction**
22 **over the highway. The department shall delegate authority under this paragraph only if it**
23 **determines that Clackamas County, Multnomah County or the city will exercise the author-**
24 **ity according to criteria adopted by the department. When Clackamas County, Multnomah**
25 **County or a city establishes a designated speed under this paragraph, the county or city shall**
26 **provide written notice to the department. The designated speed established under this para-**
27 **graph is effective 30 days after the department receives the notice.**

28 (6) The department may override the speed limit established for ocean shores under ORS 811.111
29 (1)(c) and establish a designated speed of less than 25 miles per hour on any specified section of
30 ocean shore if the department determines that the speed limit established under ORS 811.111 (1)(c)
31 is greater than is reasonable or safe under the conditions that exist with respect to that part of the
32 ocean shore. The authority granted under this subsection is subject to all of the following:

33 (a) The department may make the determination required under this subsection only on the basis
34 of an investigation.

35 (b) A designated speed established under this subsection is effective when posted upon appro-
36 priate fixed or variable signs on the portion of ocean shore where the designated speed is imposed.

37 (7) A road authority may adopt a designated speed to regulate the speed of vehicles in parks
38 under the jurisdiction of the road authority. A road authority regulating the speed of vehicles under
39 this subsection shall post and maintain signs at all park entrances to give notice of any designated
40 speed.

41 (8) A road authority may establish by ordinance or order a temporary designated speed for
42 highways in its jurisdiction that is lower than the statutory speed. A temporary designated speed
43 may be established under this subsection if, in the judgment of the road authority, the temporary
44 designated speed is necessary to protect any portion of the highway from being unduly damaged, or
45 to protect the safety of the public and workers when temporary conditions such as construction or

1 maintenance activities constitute a danger. The following apply to the authority granted under this
2 subsection:

3 (a) Statutory speeds may be overridden by a temporary designated speed only:

4 (A) For a specific period of time for all vehicles; or

5 (B) For a specified period of time for a specific kind or class of vehicle that is causing identified
6 damage to highways.

7 (b) This subsection may not be used to establish a permanent designated speed.

8 (c) The authority granted by this subsection may be exercised only if the ordinance or order that
9 imposes the temporary designated speed:

10 (A) Specifies the hazard, damage or other condition requiring the temporary designated speed;
11 and

12 (B) Is effective only for a specified time that corresponds to the hazard, damage or other con-
13 dition specified.

14 (d) A temporary designated speed imposed under this subsection must be imposed by a proper
15 written ordinance or order. A sign giving notice of the temporary designated speed must be posted
16 at each end of the portion of highway where the temporary designated speed is imposed and at such
17 other places on the highway as may be necessary to inform the public. The temporary designated
18 speed shall be effective when signs giving notice of the temporary designated speed are posted.

19 (9) A road authority may establish an emergency speed on any highway under the jurisdiction
20 of the road authority that is different from the existing speed on the highway. The authority granted
21 under this subsection is subject to all of the following:

22 (a) A speed established under this subsection is effective when appropriate signs giving notice
23 thereof are posted upon the highway or portion of highway where the emergency speed is imposed.
24 All signs posted under this subsection must comply with ORS 810.200.

25 (b) The expense of posting any sign under this subsection shall be borne by the road authority
26 having jurisdiction over the highway or portion of highway where the emergency speed is imposed.

27 (c) A speed established under this subsection may be effective for not more than 120 days.

28 (10) A road authority may establish by ordinance a designated speed for a highway under the
29 jurisdiction of the road authority that is five miles per hour lower than the statutory speed. The
30 following apply to the authority granted under this subsection:

31 (a) The highway is located in a residence district.

32 (b) The statutory speed may be overridden by a designated speed only if:

33 (A) The road authority determines that the highway has an average volume of fewer than 2,000
34 motor vehicles per day, more than 85 percent of which are traveling less than 30 miles per hour;
35 and

36 (B) There is a traffic control device on the highway that indicates the presence of pedestrians
37 or bicyclists.

38 (c) The road authority shall post a sign giving notice of the designated speed at each end of the
39 portion of highway where the designated speed is imposed and at such other places on the highway
40 as may be necessary to inform the public. The designated speed shall be effective when signs giving
41 notice of the designated speed are posted.

42 (11) A city may establish by ordinance a designated speed for a highway under the jurisdiction
43 of the city that is five miles per hour lower than the statutory speed. The following apply to the
44 authority granted under this subsection:

45 (a) The highway is located in a residence district.

1 (b) The highway is not an arterial highway.

2 (c) The city shall post a sign giving notice of the designated speed at each end of the portion
3 of highway where the designated speed is imposed and at such other places on the highway as may
4 be necessary to inform the public. The designated speed shall be effective when signs giving notice
5 of the designated speed are posted.

6 (12) Notwithstanding ORS 801.430, as used in subsection (11) of this section, "residence
7 district" includes territory not comprising a business district that is contiguous to a highway and
8 has access to dwellings provided by alleys.

9
10 **SHORT-TERM BORROWING**

11
12 **SECTION 82.** ORS 367.105 is amended to read:

13 367.105. (1) In addition to the authority for short-term borrowing granted in ORS 286A.025 (2)(d)
14 and 286A.045, the Department of Transportation, acting through the State Treasurer, may borrow
15 money by entering into a credit agreement, a line of credit or a revolving line of credit, or by is-

29 (g) Refunding an outstanding obligation.

30 (2) Short-term borrowing under this section may be in such denominations or for such sums as

32 (3) The total outstanding indebtedness created by the short-term borrowing under this section
33 may not exceed [~~\$100~~] **\$600** million in outstanding principal amount.

34 (4) All short-term borrowing issued pursuant to this section shall mature within [~~three~~] **five**
35 years from the date of issuance. **This subsection does not apply to refunding revenue bonds**
36 **issued under subsection (5) of this section.**

37 **(5) The State Treasurer may issue refunding revenue bonds to refund outstanding**
38 **short-term borrowings issued under this section.**

39 [~~(5) The department shall pay for and secure short-term borrowing under this section with funds~~

42 ~~United States government.]~~

43 **(6) Using funds from the State Highway Fund or other funds that are legally available to**

4 (7) ORS 286A.035 does not apply to borrowings under this section.

5
6 **DRIVER SUSPENSION HEARINGS**

7
8 **SECTION 83.** ORS 809.440 is amended to read:

9 809.440. (1) When other procedures described under this section are not applicable to a suspen-
10 sion or revocation under ORS 809.409 to 809.421, the procedures described in this subsection shall
11 be applicable. All of the following apply to this subsection:

12 (a) The hearing shall be given before the department imposes the suspension or revocation of
13 driving privileges.

14 (b) Before the hearing, the department shall notify the person in the manner described in ORS
15 809.430.

16 (c) The hearing shall be in the county where the person resides unless the person and the de-
17 partment agree otherwise.

18 (d) The hearing shall be conducted by an administrative law judge assigned from the Office of
19 Administrative Hearings established under ORS 183.605.

20 (2) The following apply when administrative review is provided under any statute or rule of the
21 department:

22 (a) An administrative review shall consist of an informal administrative process to assure
23 prompt and careful review by the department of the documents upon which an action is based.

24 (b) It shall be a defense to the department's action if a petitioner can establish that:

25 (A) A conviction on which the department's action is based was for an offense that did not in-
26 volve a motor vehicle and the department's action is permitted only if the offense involves a motor
27 vehicle.

28 (B) An out-of-state conviction on which the department's action is based was for an offense that
29 is not comparable to an offense under Oregon law.

30 (C) The records relied on by the department identify the wrong person.

31 (c) A person requesting administrative review has the burden of showing by a preponderance
32 of the evidence that the person is not subject to the action.

33 (d) Actions subject to administrative review shall be exempt from the provisions of ORS chapter
34 183 applicable to contested cases, and from the provisions of subsection [(4)] (5) of this section ap-
35 plicable to post-imposition hearings. A suspension, revocation or cancellation may not be stayed
36 during the administrative review process or by the filing of a petition for judicial review. A court
37 having jurisdiction may order the suspension, revocation or cancellation stayed pending judicial re-
38 view.

39 (e) Judicial review of a department order affirming a suspension or revocation after an admin-
40 istrative review shall be available as for review of orders other than contested cases, and the de-
41 partment may not be subject to default for failure to appear in such proceedings. The department
42 shall certify its record to the court within 20 days after service upon the department of the petition
43 for judicial review.

44 (f) If the suspension or revocation is upheld on review by a court, the suspension or revocation
45 shall be ordered for the length of time appropriate under the appropriate statute except that the

1 time shall be reduced by any time prior to the determination by the court that the suspension or
2 revocation was in effect and was not stayed.

3 (g) The department shall adopt any rules governing administrative review that are considered
4 necessary or convenient by the department.

5 **(3) At a hearing for failure to make a future responsibility filing or false certification of**
6 **financial responsibility requirements under ORS 809.415, it is a defense to the department's**
7 **action if the petitioner can establish that:**

8 **(a) An error was committed by the department;**

9 **(b) The person in fact was in compliance with financial responsibility requirements on the**
10 **date specified by the department by rule under ORS 806.150;**

11 **(c) An error was committed by an insurance company in notifying the department re-**

13 **provided under ORS 806.150;**

14 **(d) The person was not in compliance with financial responsibility requirements on the**
15 **date specified by the department by rule under ORS 806.150, and the department also deter-**

15 pedestrian, vehicle defect or bicycling offense.

16 (2) The department shall suspend the commercial driving privileges of a person if the department

4 schedule established by this section.

5 (c) The payment schedule is the minimum required payment of a judgment for purposes of ORS
6 [809.020,] 809.130 and 809.415.

24 violator to suspension of driving privileges as provided under ORS 809.415.

25 (4) The offense described in this section, failure to make a future responsibility filing after an
26 accident, is a Class B traffic violation.

27 **SECTION 89.** ORS 806.240 is amended to read:

28 806.240. Future responsibility filings required by ORS 806.200, 806.220 or 806.230 or by any other

42 in the filing. The department shall endorse restrictions, as appropriate, on any license or driver
43 permit the person holds as the department determines necessary to limit the person's ability to op-

34 shall immediately forward to the department a certificate stating that the judgment is appropriately
35 settled and describing the judgment and parties sufficiently for identification if:

36 (a) The judgment is settled in the manner required under ORS 809.470; and

37 (b) The judgment debtor or the judgment debtor's attorney makes a written request for for-
38 warding to the department a certificate stating the judgment has been settled as described in ORS

37 this section.

38 (8) If a vehicle is not reclaimed within 30 days after the time set for the return of the vehicle
39 in an impounding order or release of the vehicle in an immobilization order, the vehicle may be
40 disposed of in accordance with procedures under ORS 819.110 to 819.215.

41 (9) The court may order that a motor vehicle of which the convicted person is not the owner
42 be impounded or immobilized under this section only if the court is satisfied by a preponderance of

17 the holder concerning the accrual of storage or immobilization expenses. If the vehicle is in private
18 storage, the lien claimant shall transmit the written notice.

26 own expense by a qualified individual of the person's choosing.

27 (f) The person has a right to a hearing to challenge the validity of the suspension before the

45 the blood of the person as shown by chemical analysis of the breath or blood, the person's com-

1 commercial driving privileges or right to apply for commercial driving privileges will be suspended and
2 no hardship permit authorizing the person to drive a commercial motor vehicle will be issued.

3 (B) The suspension of the person's commercial driving privileges or right to apply for commer-
4 cial driving privileges will be for the person's lifetime if the person takes a breath or blood test and
5 the level of alcohol in the person's blood is 0.04 percent or more by weight of alcohol in the blood
6 of the person as shown by chemical analysis of the breath or blood and:

38 person failed a blood test, on the 60th day after receipt of the report, unless, at a hearing described
39 under this section, the department determines that the suspension would not be valid as described
40 in this section. A suspension of driving privileges imposed under this subsection shall be for a period
41 of time established under ORS 813.420.

42 (2) If the department receives from a police officer a report under ORS 813.120 and the person

16 **tablished under ORS 809.510 or 809.520.**

17 [(3)] (4) If within 10 days from the date of arrest, or, if the person fails a blood test, within 10
18 days from the date the department sends notice of suspension, the department receives a request for
19 a hearing from a person whose driving privileges or commercial driving privileges the department
20 proposes to suspend under this section, the department shall provide a hearing in accordance with
21 this section. The person shall request a hearing in the form and manner prescribed by the depart-
22 ment by rule. Except as otherwise provided under this section, a hearing held by the department
23 under this section is subject to the provisions for contested cases, other than appeal provisions,
24 under ORS chapter 183. The applicable appeal provisions are as provided under ORS 813.450 and
25 section 24, chapter 672, Oregon Laws 1985. Notwithstanding ORS 809.430, the department is not
26 required to give any notice of intent to suspend or suspension in addition to that provided under
27 ORS 813.100.

28 [(4)] (5) Except as provided in subsection [(5)] (6) of this section, a hearing required by this

31 Administrative Hearings established under ORS 183.605.

32 (b) The administrative law judge shall conduct the hearing by telephone or other two-way elec-
33 tronic communication device.

34 (c) The department may authorize the administrative law judge to issue a final order in any
35 case.

36 (d) A person who requests a hearing under this section and who fails, without just cause, to
37 appear personally or through an attorney waives the right to a hearing. If a person waives a right
38 to a hearing under this paragraph, the department is not required to make any showing at hearing.

39 (e) Except as provided in ORS 813.440 or upon remand under ORS 813.450, the department shall
40 hold the hearing and issue a final order within 30 days of the date of the arrest or, if the person fails

42 (f) In connection with the hearing, the department or its authorized representative may admin-

4 [(5)(a)] (6)(a) A person or a police officer may request that a hearing required by this section
5 be conducted in person.

6 (b) The department, by rule, shall establish the manner and time limitation requirements by
7 which a person or a police officer may request that a hearing be conducted in person.

8 (c) Unless there is an agreement between the person and the department that the hearing be

14 this subsection by the person and the production of relevant documents.

15 [(6)] (7) This subsection shall be narrowly construed so as to effect the legislative purpose of
16 limiting the scope of hearings under this section. The scope of a hearing under this section shall
17 be limited to whether the suspension is valid as described in this subsection. A suspension under this
18 section is valid if all of the following requirements have been met:

19 (a) The person, at the time the person was requested to submit to a test under ORS 813.100,
20 was under arrest for driving while under the influence of intoxicants in violation of ORS 813.010 or

22 (b) The police had reasonable grounds to believe, at the time the request was made, that the
23 person arrested had been driving under the influence of intoxicants in violation of ORS 813.010 or
24 of a municipal ordinance.

6 803.530. (1) Registration plates assigned to a vehicle by the Department of Transportation shall
7 remain with the vehicle to which the plates are assigned and are valid only during the registration

9 (2) The department may allow registration plates to be transferred to another vehicle if:

10 (a) The department receives an application;

11 (b) The applicant pays the plate transfer fee under ORS 803.575; and

12 (c) The applicant complies with the registration qualifications described in ORS 803.350.

27 (4) Notwithstanding ORS 803.400, when registration plates are transferred from one vehicle to
28 another vehicle owned by the same person, the registration period represented by the plates also
29 transfers with the plates. When registration plates are transferred from one vehicle to another ve-
30 hicle not owned by the same person, the remaining registration period represented by the trans-
31 ferred plates ceases for both the vehicle receiving the transferred plates and the vehicle from which
32 the plates were removed.

33 (5) The owner of a registered vehicle to which a plate is assigned may replace a registration
34 plate. The following apply to this subsection:

35 (a) To replace a plate under this subsection, the owner must apply to the department for re-

4 with a registration plate that is from a regular series. The following apply to this subsection:

5 (a) To replace a plate under this subsection, the county must apply to the department for re-

8 (b) The plates issued under this subsection are valid only for the period of the plates replaced.

9 (7) If the department retired the vehicle's registration under ORS 819.030 because the vehicle
10 is totaled or substantially altered, a person may apply under subsection (2) of this section to transfer
11 the registration plates to another vehicle.

12 (8) Subject to subsections (2) and (4) of this section, after the department authorizes the use of
13 special interest plates under ORS 805.210, a person may apply to transfer the plates to either:

14 (a) A vehicle that was previously determined by the department to qualify as a vehicle of special
15 interest; or

16 (b) A vehicle approved by the department as a vehicle of special interest at the time of appli-
17 cation.

18 (9) If a person described in subsection (8) of this section provides the department with only one
19 special interest registration plate for transfer and the department's vehicle records show the special
20 interest registration plate belongs to a vehicle record with no owner matching an applicant, the
21 applicant shall provide proof, as determined by the department by rule, that the plate is no longer
22 used on the vehicle it is currently showing being registered to in the department's vehicle records.

24 803.525. The Department of Transportation shall issue two registration plates for every vehicle
25 that is registered by the department except as otherwise provided in this section **or ORS 803.530.**
26 Upon renewal or when otherwise provided under ORS 803.555, the department may issue stickers in
27 lieu of or in addition to registration plates. The following shall be issued plates as described:

28 (1) Only one registration plate shall be issued for a moped, motorcycle, trailer, antique vehicle
29 or vehicle of special interest registered by the department.

30 (2) Only one plate shall be issued for a camper that is registered. Stickers may be issued in lieu
31 of a plate.

42 (1) or 824.208 shall incur a civil penalty of not more than \$1,000 for every such violation.

43 (2) Each such violation shall be a separate offense and in case of a continuing violation every
44 day's continuance is a separate violation. Every act of commission or omission that procures, aids
45 or abets in the violation is a violation under subsection (1) of this section and subject to the penalty

1 provided in subsection (1) of this section.

2 (3) Civil penalties imposed under subsection (1) of this section shall be imposed in the manner
3 provided in ORS 183.745.

4 (4) The department may reduce any penalty provided for in subsection (1) of this section on such
5 terms as the department considers proper if:

6 (a) The defendant admits the violations alleged in the notice and makes timely request for re-
7 duction of the penalty; or

8 (b) The defendant submits to the department a written request for reduction of the penalty
9 within 15 days from the date the penalty order is served.

9 **TOLLING**

10
11 **SECTION 132. ORS 383.001 is added to and made a part of ORS 383.003 to 383.075.**

12 **SECTION 133.** ORS 383.001 is amended to read:

13 383.001. The Legislative Assembly finds that:

14 (1) The development, improvement, expansion and maintenance of an efficient, safe and well-
15 maintained system of roads, highways and other transportation facilities is essential to the economic
16 well-being and high quality of life of the people of this state.

17 (2) Public sources of revenues, including federal funding, to provide an efficient transportation
18 system have not kept pace with the state's growing population and growing transportation needs,
19 and all available alternative sources of funding should be utilized to supplement available public
20 sources of revenues.

21 (3) Because public funding sources are not providing the state with sufficient funds to meet all
22 of its transportation needs, private funding should be encouraged as an additional source of funding
23 for transportation projects and facilities.

24 (4) Various alternatives for utilizing the funds of private entities in the acquisition, design,
25 construction, reconstruction, operation and maintenance of transportation facilities exist, including
26 arrangements whereby private entities obtain exclusive agreements to design, build, own, lease or
27 operate with private funds all or a portion of transportation projects and facilities in exchange for
28 the right to receive certain revenues generated from the operation and utilization of such trans-
29 portation projects and facilities.

30 (5) Another important alternative for the funding of transportation facilities is the use of federal
31 funds pursuant to 23 U.S.C. 129(a), as amended by section 112 of the Intermodal Surface Transpor-
32 tation Efficiency Act of 1991, which established a program authorizing federal participation in con-
33 struction of publicly or privately owned toll highways, bridges and tunnels.

34 (6) The federal legislation allows for a mix of federal funding and private funding of transpor-
35 tation facilities, allowing the states to leverage available federal funds as a means for attracting
36 private capital.

37 (7) Legislation for the utilization of private funding of transportation facilities should be flexible
38 enough to permit the Department of Transportation to obtain the advantages of any available al-
39 ternative under which the acquisition, design, construction, reconstruction, operation, maintenance
40 and repair of transportation facilities can be financed in whole or in part or in combination by any
41 available sources of private or public funding.

42 (8) The funding of transportation facilities through the imposition of tolls on those who use such
43 facilities is a fair and impartial means of assessing the costs of improvements against those who
44 most benefit from such improvements, and is consistent with public policy.

45 (9) Joint endeavors of public and private entities do the following:

1 (a) Take advantage of private sector efficiencies in designing, constructing and operating
2 transportation projects.

3 (b) Allow for the rapid formation of capital necessary for funding transportation projects.

4 (c) Require continued compliance with environmental requirements and applicable state and
5 federal laws that all publicly financed projects must address.

6 **(10) Significant traffic congestion adversely impacts Oregon’s economy and the quality**
7 **of life of Oregon’s communities. Where appropriate, variable rate tolls should be applied to**
8 **reduce traffic congestion and support the state’s greenhouse gas emissions reduction goals.**

9 **SECTION 134.** ORS 383.003 is amended to read:

10 383.003. As used in ORS 383.003 to 383.075:

11 (1) “Department” means the Department of Transportation.

12 [(2) “*Electronic toll collection system*” means a system that records use of a tollway by electronic
13 transmissions to or from the vehicle using the tollway and that collects tolls, or that is capable of
14 charging an account established by a person for use of the tollway.]

15 [(3) “*Photo enforcement system*” means a system of sensors installed to work in conjunction with
16 an electronic toll collection system and other traffic control devices and that automatically produces
17 videotape or one or more photographs, microphotographs or other recorded images of a vehicle in
18 connection with the collection or enforcement of tolls.]

19 **(2) “Electronic toll collection system” means a system for collecting tolls that:**

20 **(a) Does not require a vehicle to stop at a toll booth to pay the toll; and**

17 to independently finance the costs related to the construction and future maintenance, repair and
18 reconstruction of the tollway project, including the repayment of any loans to be made from moneys
19 in the [*State Tollway Account*] **Toll Program Fund;**

20 (e) With respect to tollway projects, any portion of which will be financed with state funds or
21 department loans or grants:

22 (A) The relative importance of the proposed tollway project compared to other proposed
23 tollways; and

24 (B) Traffic congestion and economic conditions in the communities that will be affected by
25 competing tollway projects; and

26 (f) The effects of tollway implementation on community and local street traffic.

27 (3) Notwithstanding any other provision of ORS 383.001 to 383.075, no tollway project shall be
28 authorized unless the department finds that either:

29 (a) Based on the department's estimate of present and future traffic patterns, the revenues gen-
30 erated by the tollway project will be sufficient, after payment of all obligations incurred in con-
31 nection with the acquisition, construction and operation of such tollway project, to ensure the
32 continued maintenance, repair and reconstruction of the tollway project without the contribution
33 of additional public funds; or

34 (b) The revenues generated by the tollway project will be at least sufficient to pay its opera-
35 tional expenses and a portion of the costs of its construction, maintenance, repair and recon-
36 struction, and the importance of the tollway project to the welfare or economy of the state is great
37 enough to justify the use of public funding for a portion of its construction, maintenance, repair and
38 reconstruction.

39 (4) If the department finds that a proposed tollway project qualifies for authorization under this
40 section, the department may conduct or cause to be conducted any environmental, geological or
41 other studies required by law as a condition of construction of the tollway project. The costs of
42 completing the studies for any proposed tollway project may be paid from moneys in the [*State*
43 *Tollway Account*] **Toll Program Fund** that are reimbursed from the permanent financing for the
44 project.

(b) “Tribal entity” means an entity wholly owned by an Indian tribe.

(c) “Tribal member entity” means an entity wholly owned and operated by an enrolled member of an Indian tribe.

(2) The first sale, use or distribution of motor vehicle fuel in this state is exempt from the license tax imposed under ORS 319.020 (1)(b) if:

(a) The motor vehicle fuel is purchased by an Indian tribe, tribal entity or tribal member entity directly or from a dealer that purchased the motor vehicle fuel in a transaction that would otherwise be subject to the tax; and

(b) The motor vehicle fuel is delivered to a service station that is owned by an Indian tribe, tribal entity or tribal member entity and operated on the respective Indian tribe’s reservation or trust land.

(3) In order to be eligible for the exemption under subsection (2) of this section, the Indian tribe must:

(a) Impose a tax on the distribution of the motor vehicle fuel at the same rate as the license tax imposed under ORS 319.020 (1)(b);

(b) Expend the revenue from the tax imposed pursuant to paragraph (a) of this subsection solely for uses that are consistent with the requirements of Article IX, section 3a, of the Oregon Constitution; and

(c) Certify annually to the Department of Transportation that the Indian tribe is in compliance with this subsection.

(4) A dealer described in subsection (2)(a) of this section shall report to the department such sales of motor vehicle fuel to Indian tribes, tribal entities and tribal member entities.

4 **made on or after January 1, 2022.**

5 **SECTION 167.** ORS 319.240 is amended to read:

6 319.240. (1)(a) The license tax imposed [by] **under** ORS 319.020 may not be imposed on motor

9 **or its equivalent issued by the state, territory or country to which the fuel is exported and**
10 **where it is unloaded.**

11 **(b) Except as provided in section 165 of this 2021 Act, paragraph (a) of this subsection**
12 **does not apply to motor vehicle fuel that is exported from this state to a federally recognized**
13 **Indian reservation located wholly or partially within the borders of this state.**

14 *[(a) From this state to another state, territory or country, not including a federally recognized In-*
15 *Indian reservation located wholly or partially within the borders of this state, where the motor vehicle*

19 (2) In support of any exemption from license taxes claimed under this section other than in the
20 case of stock transfers or deliveries in equipment, every dealer must execute and file with the De-
21 partment of Transportation an export certificate in such form as shall be prescribed, prepared and
22 furnished by the department, containing a statement, made by some person having actual knowledge
23 of the fact of such exportation, that the motor vehicle fuel has been exported from the State of
24 Oregon, and giving such details with reference to such shipment as the department may require.
25 All export certificates in support of shipments to other states, territories or countries must be
26 completed and on file in the principal office of the dealer in this state within three months after the
27 close of the calendar month in which the shipments to which they relate are made, unless the state,
28 territory or country of destination would not be prejudiced with respect to its collection of taxes
29 thereon if the certificate is not filed within such time. The department may demand of any dealer
30 such additional data as is deemed necessary in support of any such certificate, and failure to supply
31 such data will constitute a waiver of all right to exemption claimed by virtue of such certificate.
32 The department may, in a case where it believes no useful purpose would be served by filing of an
33 export certificate, waive the certificate.

34 (3) Any motor vehicle fuel carried from this state in the fuel tank of a motor vehicle shall not
35 be considered as exported from this state, except that a refund of the tax may be paid on such fuel
36 as provided in ORS 319.280 (1)(d).

37 (4) No person shall, through false statement, trick or device, or otherwise, obtain motor vehicle
38 fuel for export upon which the Oregon tax has not been paid and fail to export the same, or any
39 portion thereof, or cause the motor vehicle fuel or any portion thereof not to be exported, or shall
40 divert the motor vehicle fuel or any portion thereof, or shall cause it to be diverted from interstate
41 or foreign transit begun in this state, or shall unlawfully return the motor vehicle fuel or any por-

43 whom the motor vehicle fuel was originally purchased of the person's act.

44 (5) No dealer or other person shall conspire with any person to withhold from export, or divert
45 from interstate or foreign transit begun in this state, or to return motor vehicle fuel to this state
