**A BILL FOR AN ACT**

1  
2 Relating to residential programs; and declaring an emergency.

3       Whereas many youth in congregate care settings have unique needs related to trauma that re-  
4       quire specialized interventions and supports; and

5       Whereas staff in congregate care settings strive to provide high quality, supportive services to  
6       youth and need appropriate training to provide trauma-informed programming and supports; and

7       Whereas increased understanding of the principles of trauma-informed care and positive behav-  
8       ior support has led those in youth caring programs to seek to reduce or eliminate the use of physical  
9       restraints and seclusion; and

10       Whereas inappropriate use of physical restraint and seclusion can lead to injury and additional  
11       trauma for youth and staff; and

12       Whereas inappropriate use of physical restraint has led to the tragic death of children in care;  
13       and

14       Whereas the COVID-19 pandemic reduced the ability of staff to attend regularly scheduled  
15       trainings related to nonviolent crisis intervention and appropriate use of physical restraint; and

16       Whereas the COVID-19 pandemic increased stress and pressures within programs, exacerbating  
17       the need for training related to best practices for nonviolent crisis intervention to support children  
18       and youth living in congregate care residential settings; and

19       Whereas staff turnover in youth residential programs has historically been high and is attri-  
20       buted in part to the need for high quality training and enhanced professional opportunities for staff;  
21       and

22       Whereas the COVID-19 pandemic increased staff turnover and increased the number of new staff  
23       that programs must rapidly train to safely meet the needs of children and youth; and

**NOTE:** Matter in **boldfaced** type in an amended section is new; matter *[italic and bracketed]* is existing law to be omitted. New sections are in **boldfaced** type.

1       Whereas high staff turnover and lack of appropriate training creates serious risks for children,  
2 youth and staff in residential programs; and

3       Whereas consistency in rapid, high quality training across programs will lead to improved out-  
4 comes for youth and greater confidence in the workplace for staff; and

5       Whereas the Crisis Prevention Institute is a nationally recognized program, grounded in  
6 evidence-based de-escalation practices and nonviolent intervention; and

7       Whereas the Crisis Prevention Institute is familiar to the majority of Oregon's children's resi-  
8 dential programs, with many programs already using this training program for some staff; and

9       Whereas the Crisis Prevention Institute has the capacity to rapidly provide high quality training  
10 and certification to staff across Oregon's child caring agencies and children's residential develop-  
11 mental disability programs; and

12       Whereas the Crisis Prevention Institute has the capacity to track the ongoing certification sta-  
13 tus of Oregon staff and provide ongoing support to certified trainers and staff; and

14       Whereas Oregon's child caring agencies and children's residential developmental disability pro-  
15 grams need assistance to fully train and certify their staff to meet the needs of today's youth, par-  
16 ticularly following the increased challenges posed by the COVID-19 pandemic; and

17       Whereas the need for rapid training of staff in children's residential programs is urgent and can  
18 only be met with a one-time financial partnership from the state to jump-start a broad training ini-  
19 tiative; now, therefore,
