

Sorry if this is a duplicate as you website kicked me out. Please oppose HB 2674 as we need no new taxes during a pandemic. I am an organic farmer and you are kicking us while we are down. Any new taxes should be voted on by the people. You are putting farmers, ranchers, loggers, and firefighters in a position by increasing rules and taxes on us. Until you can allow verbal testimony or open the Capitol then you have no business deciding anything against your constituents.

This is an assault on the middle class.

Please oppose HB 2674
