

I strongly OPPOSE this bill, it is a direct attack on natural resource workers, their off-road equipment, and the fuel we need to work. Further implementation of taxes and regulations only make it harder for already struggling constituents and businesses to survive.

2021 is the 60th year our family logging company has been in business, to say that recent years have been a challenge would be an understatement. New taxes of any kind will hasten the demise of rural Oregon farming and logging family businesses like mine. Please stop the tax anything madness!
