To: **Senate Committee On Natural Resources and Wildfire Recovery**

Re: [SB 130] I OPPOSE [SB 130] as written.

I oppose [**SB 130**] "Delays sunset for pilot program allowing participating irrigation water districts to change place for use of water within district boundaries without applying for temporary transfers."

The length of time for this amendment is eight (8) years.

A lot of issues can arrive over time. Perhaps two (2) year increments may be more appropriate.

Whereas I support the efficient use of water by our farmers, crop types, for example; (Marijuana / Hemp) use considerable amounts of water.

A thorough discussion as to "Ground Water versus Surface Water" sources and volumes to be used is absent.

I support remanding [SB 130] to the Governor for further consideration as to "sunset time limit" and clarification as to "crop types" and water sources and total volumes of water to be used.

Respectfully submitted,

/s/ David S. Wall
