Re: I OPPOSE [SB 47] as written.

I oppose [**SB 47**] for it serves to foist the criminal element into unsuspecting residential neighborhoods and creates a "never-ending gravy train" for poorly managed "Non-profit and Public Benefit Corporations."

The "Grant Program" referenced and incorporated into [SB 47] "program evaluation" is deficient as to program performance and financial audits.

The omission of any residential property owners on the "The Justice Reinvestment Grant Review Committee" is unacceptable.

The equity of residential property values located in the neighborhoods where these programs will be located are going to plummet in value and arguably is nothing more than a "Government Taking of personal property (the equity in residential property).

Further, the deterrence of criminal conduct is eviscerated. Criminal offenders will "scam the system" and perpetrate more crime in peaceful, unsuspecting residential neighborhoods.

Leave the offenders in Jail where they belong.

Respectfully submitted,

/s/ David S. Wall
