Re: **[SB 564]**...**OPPOSE**... *Too many unanswered questions.*

Will the aforementioned data be sold to a third party?

Will educational requirements be dumbed-down to accommodate impoverishments?

What existing programs could (and should) be accessed to assist student-parents?

Are there food, housing and utility bill assistance available for impoverished (U.S.A.) citizen parent-students?

Are illegal aliens given; food, housing and utility bill assistance?

Have students been apprised of **[HB 2361]**?

Are issues such as "personal responsibility" for an individual's life choices being discussed?

Will the ensuing influences and directives compensate institutions of higher learning? If yes, by whom?

The "**Text: [SB 564]**" is vague and ambiguous as to the *cost* of the data collection and tabulation.

The structure and theme of many of the testimonials are similar to "form letters."

Clarification and rewriting of **[SB 564]** is required.

***Respectfully submitted,***
