

As a Native Oregonian, I feel that this State Legislature has done nothing for the better of the State for the past 20 or more years. Every time we turn around, we are having more taxes crammed down our throats. The people of Oregon are already over taxed. This affects me because we have a diesel pick-up, as well as some equipment we use for private use. If we still had our Log truck, it would affect all aspects of the business. Owner operators cannot take on another tax burden. It's time to STOP overtaxing your constituents! Remember, YOU work for US!! This will not be a good fit for an already overtaxed Oregon. Just stop with all the new taxes on everything, we can't pay them, if 80% of the state isn't even open for business.

Sincerely Fed Up
