

The benefits of lane splitting are numerous. To name a few, relieving traffic pressure, emissions reduction and safety. Lane splitting has been proven to safety and effectively work in other US states.

No more rear-end collisions in stopped traffic. Rider can keep moving on hot days (or in bad weather). Motorcycle motors won't overheat (for air-cooled motorcycles, such as most Harleys and many smaller motorcycles). Those who choose to ride and split lanes can save a lot of time getting anywhere.
