## Oregon Progressive Party Independent Party of Oregon

### Position on Bills at 2021 Session of Oregon Legislature:

Dear Committee: **HB 2814: Support**

The Oregon Progressive Party and Independent Party of Oregon support these bills, which would direct the Environmental Quality Commission (EQC) to establish and implement indirect source review program to control emissions of air contaminants from or associated with indirect sources of air pollution. It would also require notification to the public affected by such indirect sources and require that sources that violate limits make payments into a fund to be used to combat the pollution.

This bill is needed as a first step to addressing Oregon's very serious diesel emission pollution problem--one of the worst in America.
