

You need to oppose this bill. I am a landlord with only a few rentals. I have tenants who have not paid their past due rents even after receiving stimulus money (using that money to buy a large unauthorized pool,) and going back to work full time! These rentals were purchased as my retirement plan. It is not right that we should have to take the hit for these issues. We are going to lose our homes because others don't want to pay, even when they get free money to help.

I can understand if they are out of work and can't pay-then I work with them. To just give tenants an ongoing option to live in our homes that we worked so hard to achieve is JUST NOT RIGHT!

Instead of just giving them a free ride, come up with more programs to help them pay their rent or have the stimulus money go directly towards paying the rents they owe.

Landlords have had to put up with not receiving rents for long enough! Would you let someone live in your house for free for over a year??? I bet not.
