

I oppose this bill. I am a law abiding Oregonian of 51 years. In those 51 years Oregon has become less and less safe every year, but nothing compares to the lawlessness of the last few years. With Antifa and BLM violence becoming "Normal", drugs becoming "Legal", convicted prisoners being release so they don't catch a cold, DA's letting violent people go without charges because they support this violence against tax payers, and calls to defund our overworked and under appreciated Police.

The citizens of Oregon are being forced to protect themselves more and more. During Portland's "Summer of Love" people who called 911 got nothing for their efforts. The police were not coming because they were too busy dealing with the same violence they dealt with the night before with no end in sight.

The Oregon law abiding, Tax paying citizen gets nothing but punished at every turn. Legal gun owners get vilified every time someone breaks a law. It is not fair and it has to end now. We the People have God given rights to protect our families. We already have laws in place to punish anyone who commits violent crimes of any kind. Why do we enforce the laws we have instead of making criminals out to those of us who are not causing problems?

Thank you for listening and please oppose this and other laws that hurt Oregonians.
