

Opposition to HB 2510

Why? Why do you continually target those of us who aren't the problem? Why do you want to limit my ability to protect myself? A locked gun is a safe gun.....also a useless gun.

Why don't you put your efforts towards convicting the people who are the problem. Like the "almost peaceful" protesters. Like felons who try to purchase firearms when they're not legally allowed to possess them.

This is such up-side-down logic when we're allowing "user quantities" of drugs to be legal, talking of defunding the police, not prosecuting certain criminals and restricting firearm rights of law abiding citizens.

Who's side are you on???

Chris Tolke
