

I respectfully REJECT the very concept that any of you in favor of such a ridiculous bill are doing your (Oregon)constitutionally sworn duties to represent the VAST majority of decent, law abiding people who want NOTHING like this in OUR state. Being LOCKED OUT of the process, while somehow...HORDES of people can patronize the likes of Costco is a CLEAR indication that YOU "representatives" think this to be YOUR state. I keep my weapons in a safe and my home defense weapons in another, smaller biometricly operated safe, was taught how to handle firearms by a Police Athletic League and require NO ONE....least of all those who live in abject FEAR of firearms...telling me how I am to store them. The result of this type of lunacy is evident in the number of people fleeing this state for less government interference in their lives. Like this kind of thing ? Move to NY or NJ, or Conn. or Mass. where you can feel SO much safer because of idiots approving of bills like this.
