

To Whom It May Concern,

I oppose this bill!

We have risked and saved for years to be able to buy rental properties. Having tenants not being required to pay rent is putting us in financial jeopardy.

We have worked with the tenants that have reached out to us and have a hardship. The challenge is that several of our tenants that are not paying were always slow to pay and are not unemployed. They are just taking advantage of the system!

Please do not pass this bill.
