

Re: HB2409

February 2, 2021

Oregon legislature:

Please consider adopting HB2409, which will give homeowners in HOAs the option of "opting out" of having their front lawn sprayed (or otherwise treated) with pesticides and/or herbicides.

Nobody should be exposed to these chemicals against their will.

It would be great if the HOA gave a 25% dues rebate to all homeowners who opt-out AND keep their yard weed free by doing their own weeding. After all, the homeowners deserve a reward for stepping up to the plate and taking on the responsibility of weeding their front yard. It will help contain costs, too.

Sincerely,
Debra Wilson
