

I am fully in support of this measure. It really angers me that my representatives walk out rather than doing the work they were elected to do. I call them over and over to make sure they know that I am not in support of such behavior, but there are no real consequences. If I did not show up for my job, I would not have a job. I think at the very least we need to change the rules so they are not getting paid for not working!
