

My Name is Lino Juarez. I have worked for over 25 years as a farm worker. For example, as a tractor operator, picking tomatoes, lettuce, grape harvest, and the potato harvest and I currently am working at a dairy farm in Oregon and my job involves inseminating the cows for more than 12 years.

I support Overtime because primarily, farm work is very difficult. And if I could earn overtime pay, it would help me and my family economically.

My shift is from 5am to 4:30pm which is on average 11 hours a day 5 or 6 days a week depending on how much work there is to get done.

I support HB 2358 and ask for your support on this proposal to grant Overtime to Farm Workers in Oregon.
