

Before this bill can be voted on, the committee should consider the following question:

What is a lesbian individual?

What is a gay individual?

What is a bisexual individual?

What is a transgender individual?

What is a queer individual?

What is a two-spirit individual?

What is an asexual individual?

What is a non-binary individual?

What is other gender minority gender identity?

What is a sexual orientation?

And how are the answers to the above coherent when juxtaposed to one another?

This committee should unanimously vote no on this bill.

Sincerely,
Gregory
