

I strongly oppose this bill. The 2 year liability for a transferred firearm is ridiculous. If my teenage kids are home alone and an intruder breaks in, they have my permission to access our firearms to protect themselves. Yes, 911 will be called but we will not be at the mercy of an intruder, while waiting for the police. I believe parents of small children should make it impossible for them to access a firearm but not kids that have been trained and are old enough to protect themselves. The time spent on this bill would be better spent increasing punishments for felons carrying weapons or carrying weapons in the commission of a crime. Or, finding funding for the prisons that are being closed. Criminals are being released early to prey on innocent citizens and you're worried about lawful gun owners.
