

HB5015

Co-Chairs Beyer and Gomberg and members of the committee,

Thank you for allowing me to submit testimony in favor of HB5015. My name is Paul Philpott and I am a Union Carpenter, I reside in Rainier Oregon. The Bureau of Labor and Industries is essential to the construction industry as a safety net for workers and a resource to contractors. Their important work to assist workers in recovering compensation from wage and hour violations to helping contractors to stay in compliance with Oregon's laws needs to be fully funded. I urge this committee to support HB5015 to fund BOLI and their mission to help workers and contractors in Oregon.

Thank you.
