RE: HB2510

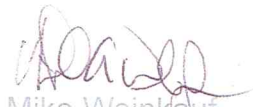

Please accept my strenuous opposition to, and encouragement for you to oppose HB2510 in its' entirety.

I am outraged by any and all attempts by any level of government to impose more gun controls on law-abiding citizens under the guise of protecting society from those who are already violating laws that are already on the books, not to mention the ridiculous attempt at making us responsible for someone else's actions.

Enforce the laws already in place, hold those responsible, responsible, and leave us alone.

Drug dealers teaching school? Legalizing pimps? Seriously??

Respectfully,

Mike Weinkauf
