

Hello, my name is Mackenzie and I am 11 years old and want the HB 2555 and HB 2725 to never be a law. I want this because I have been going to the Willamette river since I was 4 weeks old! I have had tons of memory's all my life from being on the Willamette and it is a big deal for me for it to be all gone. We only got our boat last summer, and I was on our friend's boat and still had the best time ever, that was where so many people I know learned how to wake board and to keep trying if they don't get the hang of it the first time. I know that all the friends we have brought on the boat have had as much of a good time as we did when we were on our boat and even before that. I would miss it so much because all my life I had been on the Willamette and I love it. Every summer weekend we go on the boat at least once and every time we have an amazing time and every friend we have brought on it have enjoyed it as much as we do. I love the river because it brings my family and friends closer together. We tube every time. Tubing is a big deal for me. We love to tube and to surf. I love all the times we play music from the boat while someone is tubing are the best and make me feel so much joy. It just would not be the same if we could not do any of them. The boat is what bring us together.
