

I strongly oppose this bill, my family has grown up lived on this section of the river. My boat will not be allowed and I can't believe this boat is being blamed. You see what this river does when the water comes up way more the these wake boats can. I can see the wakes being annoying in the summer let's be honest that what this is about. Cut the wake limit get some enforcement out there. That's what needs to happen.

That meeting this afternoon was so transparency one sided it was a joke. You spend 10 minutes tryin\* to get a video going that everyone has already seen. There's talk it was on purpose to cut down on opposition speaking time. That board should be ashamed.
