

I absolutely oppose House Bill 3221.

1.) Why House Bill 3221 should not be Enacted.

Unfair to only charge residential electric customers for renewable energy infrastructure.

2.) Why SB 1149 should be repealed for “tariff” the Public Purpose Fund Administrator for the illegal tariff "sale tax" for electric consumption. (*HB 3221 Page 5, line23*)

a) **tariff** (*verb*) fix the price of (something) according to a tariff. "these services are tariffed by volume" [TARIFF | Oxford Dictionary on Lexico.com](#)

b) Why SB 1149 not working efficiently

<https://cascadepolicy.org/economic-opportunity/oregons-public-purpose-energy-tax-mission-accomplished-ormission-creep/>

c) Hydroelectric power is renewable

➤ <https://cascadepolicy.org/environment/hydroelectric-power-is-renewable-its-time-legislators-recognize-that/>

b) **Portland General Electric**

\$44.52	price per share 3/9/21
21,000,000	shares outstanding
\$934,950,000	value outstanding shares

4.) Page 1, Line 24-27; “...magnitude 9.0 Cascadia subduction zone seismic event or other extreme natural event such as a wildfire, flood or heat wave.”

If any of these events were to happen the electrical grid as we know it would be disabled and unavailable to use for who knows how long.

5.) Page 2, lines 8-11; Independent Evaluator –

a) PUC not able or unwilling to conduct evaluation?

b) Is that not PUC function to have Agency Directors and Board Members to accomplish tasks without the need to spend state revenue to hire an independent evaluator?
