

To whom it may concern,

Please accept my testimony in opposition to HB2725. As a long-time boat owner and resident of Sherwood, this bill would adversely affect my families enjoyment of the river we have come to love. Wakesurfing can be and is done safely in the Newberg Pool - and further limiting boats to less than 4,000 lbs would effectively wipe out this activity on the river. I think the river should be available for all to enjoy and there are already current regulations in place - which we comply with currently. Please don't kill this activity for all.

Matthew Moore
