

Statement of Jennifer Calicott in support of SB 700

I am writing you in hopes that you will support SB700. I am a school nurse and see TBIs/Concussions regularly. These students fall behind in school and have a hard time catching up. I am also seeing that COVID victims, including myself, are struggling with "Longterm COVID" my brain is having difficulties getting back to where I was before COVID. This bill could possibly help those students as well.

Thank you for your time and service,

Signed: Jennifer Calicott
