

I'm asking for your support of this bill to require guns to be secured. As a parent, I worry about the safety issue of unsecured guns. I ask when my kids go to a friend's house if there are unsecured guns, but I can't ask if any the kids at school have access to unsecured firearms. I also worry as my kids get older about the suicide risk. Just because teens know about firearm safety doesn't mean they won't reach for a gun in a moment of crisis. A dear friend (who's testimony you will hear) lost her grandson as a result of an unsecured firearm and a split second decision.
