

To whom it may concern,

I understand that typically, representatives of the people such as yourselves actually forget that you represent the people. You also forget your sworn oath to uphold and defend the Constitution of the United States of America. Our second amendment is sacred, and does not limit the rights of the people, but limits what the government cannot do with regard to that right. The words "shall not be infringed" should be pretty clear to all of you. The only reason to miss its meaning is because you choose to. I constantly hear how you all want to enact new laws to limit the rights of the people who you are supposed to serve, but I have yet to hear ANY of you come up with ideas on how to affect the criminal elements without trying to rob the law abiding citizens of our rights. This is a bad bill written by someone who is either incompetent, or someone who is deliberately choosing to ignore their sworn oath in an attempt to screw the people out of their rights. I ask that you choose to be on the right side of history, and remember who you work for. I urge you to vote NO on this bill. Incidentally, I appreciate the creativity of the sponsors of this bill sneaking it under the guise of public health in the hopes that it may get missed. Do your jobs, honor the Constitution, remember your oaths, period

Sincerely,  
Erick H Browning
