

My children have attended private school their entire education. I am not wealthy. I am a single parent Who owns a small business and I work incredibly hard to be able to afford private school. This is a choice I make.

I believe if we are taking away our choices and our freedoms, it is also taking away from motivation to work hard and support our local economy. I also works very hard to be able to give my children the education that our private school provides.

From my point of you any parent could get multiple jobs and work 80+ hours like I do weekly to be able to afford private school. It is a choice and I'd like to keep it that way. I would also love to have my choice for where my children attend school. I want my children to be surrounded by people who are all about love and not about an agenda.

Forcing private schools to act like public school is forcing an agenda. I am willing to pay the big bucks for private school which is why I oppose this bill. Public school is totally different than private school. And it's private for a reason because we want to have the very best education and be free to be all about love and purity, not more of what the online world is trying to pour in. Let kids be kids. Let them be of pure heart and mind as long as possible and leave politics out.

I am very thankful for our freedoms and this awesome state. Please keep it that way.
