

I am submitting my opposition of SB 223 to the Senate Education Committee on Monday, March 15, 2021.

As a concerned parent I have dutifully read the entire SB 223 and am deeply alarmed at how this bill intrudes upon private schools freedoms. Accredited private schools already have regulations and oversight. They definitely do not need additional beaurocratic oversight by a public government body. The threat of imprisonment and fines as well as preventing students from participating in athletics goes way too far.

Additionally, SB 223 infringes upon parents First and Fourteenth Amendments.

I find this to be a HUGE overreach and I implore this committee to vote this bill out of committee
