

I oppose this bill:

1. the ODE has the right to oversee state funded schools, but private schools are funded individually, therefore ODE should not have oversight.
2. Many parents choose private because public schools have failed their children (bullying, curriculum, socially, emotionally, etc). They are having success in private school finally, so to bring back the structure that harmed them is not right.
3. There are other avenues to ensure students are being educated.
4. To punish children by taking away clubs and sports is just plain mean and wrong.
