

I oppose this bill as I, after getting educated on the various alternative voting methods, feel that STAR voting is the fairest of them all~!

I urge you to take the time to learn the differences between the different types of voting systems as I am sure you will see the benefits STAR voting will allow for all votes to be counted and meaningful. No more throw-away votes.!

This is perhaps the most influential measure to be passed. Please pursue your efforts to make sure every voter's voice will be heard!
